REDWOOD ARABES

REFERENCE: EGM-4489, 11 June 1965

1. In reply to the Station's query, the publication forwarded in EGM-2133 was not disseminated. It was sent informally to C I where it may be of value in developing city information. The publication was appreciated, but see again paragraph 6 of EGM-17144 for the types of publication for which there are requirements.

2. When you debrief ARABES/1 on his next trip to Germany the following requirements should be covered, if it appears he is knowledgeable. The relative importance of the questions is indicated by the order listed, the first question being the most important.

- a. Requirements forwarded in EGM-16231.
- b. Paragraph 6 of EGM-4489
- c. Paragraphs 3c (no presence of turbine helicopters), 4, and 5 b and c, and 6 of EGM-17144.
- d. Sketch the layout of the chemical plant, plotting locations and giving dimensions of ARABES/1 company buildings and other buildings with which he is familiar. Describe the fencing, guard towers, and entrances to the plant complex.
- e. Describe any changes in the fences at the airfield described in EGM-1970. What is the total number of fences now? Where were guard towers located along the fences? Was the main entrance guarded by an armed guard? If possible, prepare an outline sketch showing locations of the main installations and entrances at the airfield.
